GIRL WITH A PEARL EARRING  
JOHANNES VEERMER  
(modern version)

I used paper, glittering objects, wadding, paper, metal, cloth.  
I took the glittering objects from a t-shirt, the metal stars from a bag, the petals from a cloth rose. I painted some wadding and created small balls then I cut paper into pieces to reproduce a mosaic.

I used paper, wood, clothes, glittering objects. I cut the coloured paper into small pieces to reproduce the style of a mosaic. The glittering objects were taken from an old t-shirt while a local artisan cut the wood in small pieces. A dressmaker gave me a light blue cloth to complete the painting.
